PLUMBING & HEATING

George S. May International Co.
303 S. Northwest Highway
Park Ridge, IL 60068

I requested your services because our organization has grown from a one person accounting office to a 3 person office. We were not organized, the flow of work was not efficient nor accurate.

We were provided with tools to implement an efficient purchase order system, an organization chart, job descriptions, job cost coding redefined, tool control and followup.

I feel the savings and profit improvements will be realized, and have already been noted by the purchase order system, with minimal effort on my employees part.

As this program is being implemented, I and my staff understand and are satisfied with the job that your organization has provided.

Sincerely,

President
