Park Ridge, IL 60068

To Whom It May Concern:

As our company has quickly grown we did not plan for success and it felt like we were on the brink of disaster. On May 30th, 2002 your company started working on our numerous inefficiencies and dwindling profit. By creating and implementing everything from cash flow management policies to employee incentive programs, for the first time in 4 years I actually understand my business. I have renewed hope not only in the viability of our business but the actualization of real, attainable profit.

Your staff was very professional and good at explaining the material in everyday jargon. [REDACTED] in particular was dedicated and understanding attempting to wrap up our job in an efficient and effective manner.

I am grateful to the George S. May International Company for literally helping me stay in business. My only regret is not finding you before I opened my business!

Sincerely,

[REDACTED]
